

ATV General Rules

All Alberta Triple Crown Rules apply to Alberta Triple crown series. There are classes offered in the ATC (Alberta Triple Crown) that are not offered in the ADRA Provincial Series or the ADRA Southern Alberta Series. Mandatory rules apply to all series. A CMRC licence is required to participate. [Click here for the license application.](#) In all series if a rider is under 18 the 2 part parental/minor consent form must be filled out. [Click here for the form.](#)

1) The following safety requirements are mandatory for all ATVs:

- Tether cord that functions properly
- Nerf bars or OEM foot boards
- Number plates must be on machine – front, back, sides and you must have one on your back.
- All UTV classes must have extremity restraints
- All classes are subject to random tech inspections throughout race day
- Open 4 x 4 classes must have all extras removed
- At all CMRC ATV sanctioned events, the rulings of the Referees/Promoters are final

2) In all classes, the ATV's engine must not exceed class displacement limitations.

3) In all ATV production classes, the engine must be from the approved model. The manufacturer's frame, crankcase, cylinder and cylinder head from the approved model must be

used as catalogued and sold by the manufacturer of the ATV in question. (*Excludes ATV Junior and Mini ATV Open)

4) All other CMRC rules apply (see 2010 CMRC rule book for details)

All UVT classes must stay within displacement limits of the class. Production classes must use the approved OEM cylinder head, cylinder and cases, as well as OEM Frame. Engines cannot be stroked or bored in any production division.

ATV Junior and Mini ATV are not limited to production rules, however they must fall within the displacement limits of the class.

ATV participants are permitted to compete in more than one class provided they meet the rules and eligibility requirements for that class.

In instances where a rider's machine becomes disabled prior to reaching the finish line AND he/she completed at least 50 percent of the total number of laps completed by the winner, he/she will receive last place points. In these circumstances, riders will NOT be required to physically push his/her machine across the finish line. Riders who do physically push their machines across the finish line will be considered as having completed the race.

ADRA ATV Number/Background Colours (Same as ADRA)

ATV Mini advanced - Black/White
